For Homeowner/Installer

1. Download and install the app from App Store or Google Store.
Note: Any users who want to control this same pool need to login with this same email address and password.
2. Click on **Create an Account**.
3. Enter your email address, password, confirm your password and click **Submit**.
4. Click on **Configure a Device**.
5. Click on **Add New Device**.

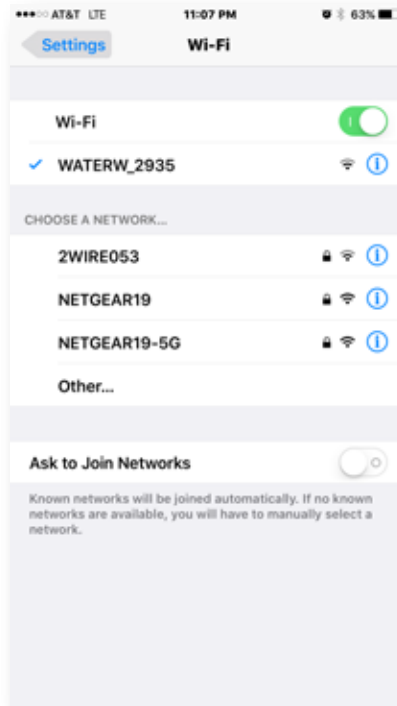

NOTE: If a new network has recently been installed, delete the current Device and reconfigure using 'Add New Device' to connect to the new network.

11. Then the device will configure and connect to your home Wi-Fi network and the Web. Type in a name for the device and press **OK**.

12. Select a device from the list, for example: **My Pool**

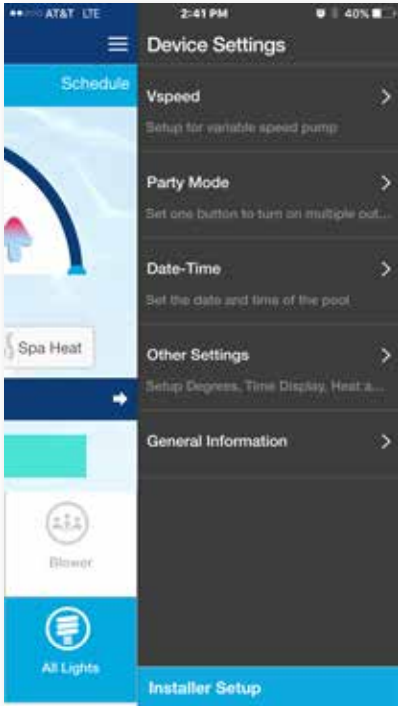

13. Now you can control your pool from anywhere in the world using your smart phone. You can set the temperature, heating operation mode and turn the light ON/OFF. In order to access the application menu press the **wrench icon** in top left corner. 

14. To access Scheduling click on **Schedules**. Select pool function that you would like to schedule, for example: **Pool Light**.

15. You may program up to 4 schedules for selected functions.

For the Installer

16. To access device settings click on **menu icon** in top right corner. To access **Installer Setup** press the icon  at bottom of screen.
17. Enter password: **waterway2016** in the **Current Password** box.
18. **Installer Setup**. Click on **Assign Output** to configure output.

To Monitor Client Pool

19. Start the Waterway app from the installer phone. Select the **wrench icon**. Select **Add Device** and **Add Existent Device**. (See #5.) You will need the MAC Address of the client pool. From the client mobile app click on the **pencil icon**  next to the selected device to see MAC address.
20. Enter the new device's name, the MAC address and Device's Owner Email. Click **Add**.
