

Air Max Spa Jets

Waterway's new Air Max jet offers an air-rich flow mixture for a softer, more gentle massage. These jets are available in three styles for a variety of massage sensations and a unique metallic blue color to distinguish the jets from regular water jets.

Features:

- Air rich mixture
- Three different styles to choose from
- Available with and without stainless steel
- LED ready
- Utilizes standard Cluster Storm jet bodies
- Available matching color topside controls (if volume permits)

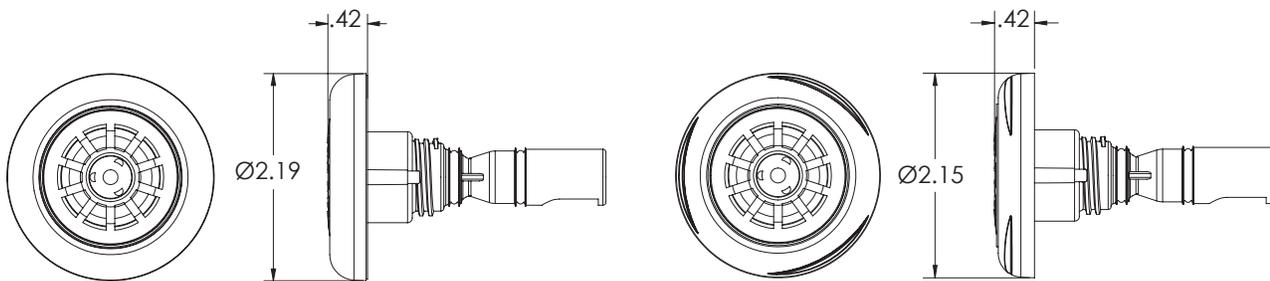

Specifications:

- 6.25 GPM at 15PSI
- 316 stainless steel escutcheon
- (2) EPDM rear seals
- 2 3/16" diameter

Air Max Spa Jets

Waterway's new Air Max jets are available in 3 different internal styles and offered in two materials: plastic and metal.

Jet Internals
