

SGMS LED Ozone Return

Waterway is now offering LED ready Ozone Return Fittings designed with the SGMS (Sure Grip Mounting System) technology. This process allows for faster installation without the need for back facing, use of silicone or torquing nuts. Simply drill the hole, install the grommet, add a little lubricant and press in the ozone return fitting; it's that simple!

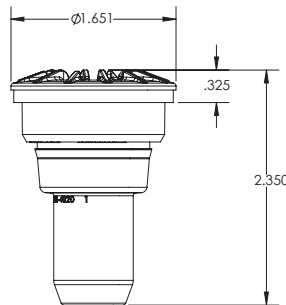

Features:

- Easy to install SGMS technology
- Speeds up production time
- Available in ribbed barb
- LED Ready

Specifications:

- 1 5/8" large return fitting
- 6 Ribs to diffuse water flow
- 16 GPM @ 5 PSI
- Nozzle diameter 0.590"
- Hole saw size – 1 3/8"
