

SGMS Storm Jets

The power of the storm has returned with Waterway's new SGMS Storm Jet Bodies. Waterway's SGMS technology allows for easier installation and increased installation capacity. Installing is as simple as drilling the hole, inserting the grommet and pressing in the body. There's no need to spot face and no need for silicone, gaskets, nuts or compensating rings.

Features:

- SGMS Sure Seal Technology
- Fast and easy to install
- Available in Cluster, Mini, Poly and Power sizes
- Available in smooth or ribbed barbed plumbing
- LED ready

Mounting
Made
Easy

SGMS Storm Jets

Specifications:

- EPDM Grommet
