

18" Spillover WATERFALL

Patent # US 9,027,848 B1

Waterway's new 18" Spillover Waterfall's simple design utilizes a built in basin formed into the spa wall for a reservoir. This allows for a near perfect shear descent of the waterfall.

Features:

- Utilizes built-in reservoir for water housing
- Adjustable /non-adjustable flow control
- Sleek and simple design
- LED compatible
- Easy installation
- Available with and without adjustable water flow control.

Mold insert required for optimal fit of waterfall.
